

The
Vedica
Scholars
Programme
for Women

Dear Meghana,

You have redefined creativity and imagination for all of us at Vedica. You have a gift to turn the most ordinary into the special. You add your unique and indelible stamp to whatever you touch, and have left us spell-bound on many an occasion. You are helpful and committed to leaving everything a 'wee bit better than you find it'—a value that we admire and respect immensely.

You have a way of stepping out of your comfort zone with an inspiring ease and excitement. And all of us on the Programme Team know that your ability to add a dose of hard work to creativity will take you very far. Over the past 18 months, you have edified the Vedica experience for all those around you. Your enthusiasm for the programme is contagious!

With your light-heartedness and your willingness to grow, you have set the Vedica standards for leadership. Thank you for taking the step forward, beyond what you were required to. That step has carried you—and all of us—onto a new further.

We know you will shine. Stay happy and don't quit!

Warmly, Anuradha
